

SEEE Seminar Series presents...

The (Modern) Maker Movement and its Impact on Education: Opportunities, Challenges, and Insights on Educator Practice

Tuesday, November 29, 2016

4:00 – 6:30 pm

SDG&E Energy Innovation Center
4760 Clairemont Mesa Boulevard, San Diego CA

The Maker Movement is made up of a community of tinkerers, creators, innovators, and designers, who make things for many different reasons, including for fun, for profit, for a challenge; makers tend to value learning through doing, sharing their process, and giving and receiving feedback.

Dr. Jessica Parker will explore the conditions that have led to a recent growth in the Maker Movement. From issues of agency and equity to standards and assessment, she will discuss opportunities, challenges, and insights of the Maker Movement, including an analysis of its impact on education.

Prior to our speaker, we will showcase a group of local exhibitors making and sharing their materials.

Dr. Jessica Parker

Education Community Manager, Maker Ed

Dr. Jessica Parker is the Education Community Manager at **Maker Ed**. With 10+ years teaching in higher education and secondary classrooms, Jessica went to Maker Ed with a passion for making and the Maker Movement, expertise in the field of digital media and learning, and extensive experience in supporting professional learning networks. Before working at Maker Ed, she was an associate professor in the department of Curriculum Studies and Secondary Education at Sonoma State, where she co-founded the **Maker Certificate Program**. She is the author of *Teaching Tech-Savvy Kids: Bringing Digital Media into the Classroom*. Jessica earned her degrees in Mass Communication and Education from UC Berkeley.
