Directions to SDSU College of Engineering

Take Interstate-8 to the College Avenue exit. Travel south off the exit (if you are traveling on I-8 East from the west you will turn right onto College Ave.; if you are traveling on I-8 West from the east, you will turn left onto College Ave).

When you see the large “San Diego State University” stone marker on the far right corner (1st light if you exited I-8 E coming from the west, and 2nd light if you exited I-8 W coming from the east), turn right onto Canyon Crest Drive. Continue straight, then curve to your left and go up the steep hill.

At the 3-way stop at the top of the hill (Charles Hostler Hall will be in front of you), turn left (this will be Aztec Circle Drive). At the next stop sign (Donald P. Shiley building will be in front of you), bear to the left to stay on Aztec Circle Drive. Go straight through the next stop sign, and then curve to the right. As you curve to the right, you will see covered parking on your right which is the back of the Engineering Building.

Park behind the Engineering building in a designated SP-103 space. Please DO NOT park in a handicapped space or the space reserved for the Dean. Enter the building at the entrance visible at the far end of the parking area and take the elevator to the 2nd floor.

If you were not issued parking permits in advance, please obtain them in the Dean’s Office (2nd floor, Rm 203), or from your University contact. Please be sure to display your parking permits on the inside driver’s side dashboard.

Engineering Dean’s Office: 619-594-6061, 5500 Campanile Drive, San Diego, CA 92182
