Skip the Scams and Use These Job Search Websites!

Small businesses and start-ups love Craigslist because it's a simple and free method to list job openings. However, scammers love Craigslist because there's little enforcement. For a more credible, updated, and refined job search, try these websites:

 **Indeed.com** is a great job search tool that allows you to narrow your job search down to what job title or position you are looking for and where you want to work.

 **idealist.org** is a job search website for the non-profit sector. You can filter postings by: Organizations, Jobs, Internships, Volunteer Opportunities, etc.

 **CalJobs.ca.gov** has extensive job and internship listings which can be sorted by categories.

For further assistance, schedule an appointment with your WAIV counselor.
