The Informal Mathematics Collaborative
Summer Professional Development Program

We invite you to attend a professional development program, open to any formal or informal educator who is interested in engaging learners with mathematics in new and creative ways.

This 3-day summer workshop will be hosted in San Diego's Balboa Park by the Informal Mathematics Collaborative, a unique partnership of art and science museums. Through hands-on activities at three different museums, participants will have the opportunity to:

- Investigate diverse mathematical topics through making, tinkering, and artistic creation
- Explore connections between mathematics and the arts
- Develop strategies for incorporating mathematics into existing offerings
- Gain insight into how museum resources can support mathematics learning

DETAILS
Wednesday, August 10 - Friday, August 12
9:00am-4:00pm

FACILITATING INSTITUTIONS
San Diego State University, Center for Research in Mathematics and Science Education (CRMSE)
Mingei International Museum
Museum of Photographic Arts
Reuben H. Fleet Science Center

Space is limited. Apply Today!
Application deadline is August 1, 2016.

Accepted participants will receive a stipend for completing the three day workshop.
