

Breaking the Boundaries of STEM Education Research
April 7th from 9am - 8:30 pm at Loyola Marymount University

Breaking the Boundaries in STEM Education Research

This NSF-funded conference is organized around discussing equity, problem solving, and the role of computing in undergraduate STEM Education.

Join us for two plenary talks, paper sessions, workshops, poster sessions, working groups, and breakfast, lunch, and dinner. There will also be several opportunities to make connections and mingle throughout the day.

Information for the conference can be found at:

<http://lmu.edu/BreakingBoundaries/>

Registration is \$50 before 3/24/17

Questions can be directed to: BreakingBoundaries@lmu.edu
