

Repeat of WU Grade Course

With prior permission of the graduate adviser, a graduate student may repeat one course in which a grade of WU has been received. If a student repeats a course in which a WU has been earned, the original WU grade will remain on the permanent record, but it will not be calculated into the grade point average. Only the second grade will be used in computation of a grade point average. A student is allowed to repeat a course with a WU grade only once in the entire post-baccalaureate studies.
