

## Internship & Volunteer Opportunities

“I didn’t know research could be so interesting!”

The **Institute for Behavioral & Community Health (IBACH)** bridges communities and science to conduct meaningful and relevant public health research that leads to positive health outcomes and sustainable health programs in a variety of settings: family homes, grocery stores, recreation centers, churches, research office, and clinics. [www.ibachsd.org](http://www.ibachsd.org)

**Our Choice/Nuestra Opción** is a four-year demonstration project to explore ways to improve the eating, physical activity, water drinking, and sleeping habits of children ages 2-11 and their families in Brawley, Calexico, and El Centro of Imperial County, CA.
