Step #4: Enter Document Name, Customize Message, and Send
It is recommended to enter the name of the organization before the document name so that it will be easier to identify. For example, YMCA SDSU-Service Learning Agreement. The workflow provides a prepopulated message. It is recommended that you add the name of the employer and your contact information to the bottom of the message. Also, feel free to customize the message as they will see it in the email they receive and when they open the document to sign. Then click Send.

*Please note that the Internship Site Questionnaire document is already attached to the workflow

Please note that if the SDSU College Representative has an AdobeSign account, then the signers name will appear and only the signature will have to be entered. If the signer does not have an account, then the signer will need to enter their name and signature.

The signer will see this screen to enter his/her signature. Click the blue “Apply” box. Please note the signer can type, draw his/her signature with his/her mouse, or upload an image.

Once the signature is entered, the signer will be prompted to “Click to sign” by the blue button below in order to sign the document.
