The Senate was called to order at 2:03 p.m.

1. **Agenda (Goehring)**

   MSP
   Approved agenda for April 8, 2014.

2. **Minutes (Goehring)**

   MSP
   Approved December, February and March minutes. Corrections were received. Senate approves without seeing corrections.

3. **Announcements (Eadie)**

   We are conducting Senate elections. We have extended the deadline for nominations, but we still need one Senator for the College of Business and four Senators for PSFA. Allison needs the nominations by Friday. We will need a one-paragraph statement of qualifications and interest. We do have some election results: Vice Chair Ornatowski was reelected to the Statewide Academic Senate.

4. **Academic Affairs (Benkov for Marlin)**

   The admission process has been completed for Freshmen and Transfers except for those who fall under SB1440. Based on applications, we should have a “full house.” The interviews for the Business Dean have been completed, and the recommendation has been sent to the Provost. The Provost search has also been completed, and recommendations made.

   **Discussion:** (Senator Putman): In terms of the new student success fee for hiring, will that be added? **AVP Benkov:** We should have approximately 50 hires from the fee.

5. **SEC Report (Ornatowski)**

   **Information:**
There is a new referral for Constitutions and Bylaws regarding the language for use of the term “College.” On March 10 we held a lunch meeting for the Active Transportation Committee about the policy regarding skateboards and bikes.

Discussion:

(Senator Wheeler): There was a Senate-driven study about the events at IVC and a no-confidence vote on their Dean. Are there any updates about that situation? (Chair Eadie): There was a well-attended training held about non-discrimination, which received a positive reaction. The Provost is conferring with the Dean about relations with Faculty. (Senator Cordero): My impression is that people feel there has been no change regarding this situation. (Senator Wheeler): Is there any reason for this body to follow up and independently deal with the situation? (Chair Eadie): Only if the faculty and staff at IVC want us to come back again and tell us how we could help. The faculty should address us directly, and we’ll be happy to respond.

6. New Business: Action Items

6.1 Academic Policy and Planning (Schellenberg)

AP&P has three proposals for senate action:

Action Item #1:
Move that following changes be made to the Academic Responsibilities section of the Policy File.

2.0 Course Syllabi: The syllabus for each course shall describe the course’s purpose, scope and expected student learning outcomes. In addition, each syllabus shall include office hours and contact information for the instructor, refer to the current procedure for accommodating students with disabilities (refer to Student Disability Services), and describe the course design, conduct, required materials, schedule, and grading policies, which may vary by section. A syllabus shall not bind the instructor to specific details, and the instructor shall retain the right to adjust the course design. Major departures from the syllabus, however, especially with regard to student learning outcomes, major assignment due dates and exam dates, and grading policies, shall be made only for compelling reasons.
Rationale for changes to Section 2.0: Makes language consistent with syllabus norms and ensures communication of critical course information to students.

2.1 Instructors shall provide students with access to their course syllabus at or before the first class meeting, except when circumstances beyond the control of the instructor prevent such distribution. Whenever possible, instructors shall post syllabi on individual web sites or learning management systems. In addition, instructors shall post their syllabus on individual web sites or on the official and available course site of the SDSU BlackBoard learning management system as well as any other course web site routinely accessed by the course students. Any major changes to the course syllabus shall be announced in class, communicated to all students electronically, and incorporated into an updated and posted version of the syllabus.

Rationale for changes to Section 2.1: Ensures students have entire drop-add period to make informed choices regarding their personal and academic schedules. Minimizes the potential for student grievances.

2.2 Each semester departments shall submit the most recent version of each syllabus, or approved template containing basic course information, in electronic format to an accessible University database.

2.2 Departments shall, by the drop-add deadline of each semester, upload their course syllabi in an accessible electronic format to the SDSU Syllabus Collection. Faculty may elect to complete and provide to their department a completed course information template (available from the SDSU Syllabus Collection) in lieu of the official course syllabus.

Rationale for changes to Section 2.2: The SDSU Syllabus Collection was endorsed by the University Senate and is currently maintained by Library and Information Access. However, submissions for previous semesters are woefully incomplete. Thus, these changes explicitly identify the SDSU Syllabus Collection as the official “accessible University database” and establish the expectation that faculty provide syllabi to the appropriate departments for uploading. In addition, as we move through WASC reaccreditation process, some WASC Criteria for Review include the posting of course syllabi and appropriate information therein (e.g., student learning outcomes, etc.) and the SDSU Syllabus Collection is the only means to synoptically address such criteria. The various Associate Deans and Kevin Jeffery (Associate Librarian) are working to ensure that each department/program has a designated syllabus uploader with the necessary training and access to the SDSU Syllabus Collection.

4.0 Faculty Office Hours: Each faculty member shall hold regularly scheduled office hours and shall post a schedule of those hours and their contact information at their office location and within their syllabus.

Rationale for changes to Section 4.0: Provides opportunity for students that may not currently be in a given faculty member’s current courses to meet with said instructor.

Chair Eadie: Because different sections of this proposal cover different topics, assuming no objection we will consider them ad seriatim.

The first discussion covers proposed changes to Section 2.0.

Discussion:

(Senator Putman): Can you clarify what is considered “major” on point 2.0? (Senator Schellenberg): It is good for faculty to let students know when more important assessments
will take place and state clearly in the syllabus. (Senator Putman): How specific do we need to be that early before the semester? Does switching scheduled assessments mean a major departure from current policy? (Senator Schellenberg): This policy presumes that you have specific dates in your syllabus for major course activities. (Senator Snaively): If an issue regarding scheduling went to Student Grievance committee it would be a problem. It is not reasonable to be vague in your syllabus. (Senator Aguilar): Could there be a language in one’s syllabus stipulating 2 week advance notice for changes? (Chair Eadie): We could add to policy, but such a stipulation is not currently there. (Senator Shackelford): There are cases when more time is needed, or to back off due to other exams. (Senator Cummins): The issue is still what the policy means by the term “major.” What about pushing back the due date? Is that a major issue for students (Senator Ulloa): I move to remove the term “major departures” from the sentence to allow for greater flexibility in constructing the syllabus. (Amendment Seconded). (Chair Eadie): The term you’ve moved to replace is from the original policy, not the revision. (Senator Plice): (Against amendment) I think this makes matters worse, because it makes any departure from the syllabus an issue.

**MSF** To amend the proposal to remove the term, “major departures.”

(Senator Packard): (Speaking against main motion): Can we substitute “exam and assignment due dates” rather than using the term “major”? (Senator Cummins): I move to substitute the phrase, “published due dates” for “major.” (Senator Chan): (Against motion): Wouldn’t that be an excuse to not publish any due dates? (Senator Aguilar): I think we need more specificity. (Senator Moore): (For the motion): The consensus in the room is that professors publish due dates, and that the new language solves the ambiguity of “major.” (Senator Snaively): (Against the motion): The section does not compel faculty to publish major due dates, so if we don’t put it in there faculty will try to get around rules. (Senator Packard): (For amendment): We could get around it by saying assignments are due sometime within a week, and require two weeks for any change.

**MSF** To amend the proposal to substitute “published due dates” for “major.”

(Senator Wheeler): Despite the failure for the motion to pass, this conversation elicits interpretation over the term “major”

(Senator Beck): Do most faculty use customized websites rather than Blackboard? Does section 2.1 mean that blackboard is not necessary? (Senator Schellenberg): Is the website ADA compliant? Nothing in rationale about accessibility? (Senator Deutschman): The syllabus must be posted on Blackboard, but nothing else is necessary. (Senator Schellenberg): Yes, that was the rationale to make Blackboard mandatory. (Senator Beck): I move to change 2.1 (line 5) to delete “as well as” and add “or.” (Benkov): (against motion): Blackboard is the first access for students. (Senator Donadey): (For motion): Technology moves fast, so this is something that may change. Flexibility is needed. (Senator Chan): (against motion): For students, Blackboard is the main site, and we want early access to syllabi. (Senator Beyene): (for motion): The problem is that in some colleges Blackboard is dominant, but in others it is not the dominant mode of interacting with students. Making this rigid does not add value. (Senator Plice): To make it easier for students, can we put a link to other faculty sites on Blackboard.

**MSF** To modify 2.1 (line 5) to delete “as well as” and add “or.”
(Senator Snavely): (for the main motion): Having served on the Student Grievance committee, it really helps to spell these issues out carefully for faculty. (Senator Donadey): (against the main motion): Now we are being asked to post syllabi three times, so the practicality makes me think this is not doable. (Senator Testa): (for motion): This is about setting a standard. The function is to provide clarity for students.

MSP
To adopt the proposed revisions to Section 2.0.

The second set of changes is proposed for Section 2.2.

Discussion:
(Senator Schellenberg): This has a long history. Currently, we already need syllabi posted to each department. The language provides clarity about where to post. WASC accreditation needs this. (Senator Snavely): Is there any data on how many times the library syllabus site has been accessed by students? (Senator Donadey): (against motion): This is yet another unfunded mandate. Syllabi already need to be uploaded by the Add/Drop deadline. There should be someone in charge of doing this (who is paid), or they should be harvested and posted automatically. (Senator Schellenberg): This was originally proposed by Associated Students and was endorsed by the Senate. (Senator Snavely): (against motion): I originally thought it was a great idea, and the goals are valid, but Senator Donadey’s statement about implementation is right on. This puts an onerous duty on faculty or someone within each department.

(Senator Putman): I’d like to make a motion: I move to change the deadline for when syllabi need to be posted from the add/drop deadline to the end of the semester. (Senator Evans): (against motion): This speaks to ADA issues. Some students with disabilities need to choose classes based on syllabus information. (Senator Chan): (against motion): Posting early allows students to get a sense of the class, but also to decide on courses at the beginning of the semester.

MSP
To change when syllabi are due from the Add/Drop deadline to the end of the semester.

(Senator Donadey): (against motion): There should be a paid staff person to maintain the syllabus collection. (Senator Wheeler): (for motion) Despite issues and challenges it can be done. (Senator Donadey): I move that the university shall, by the end of each semester, ensure that course syllabi are uploaded in an accessible, electronic format to the SDSU syllabus database. This would remove compliance issues away from unqualified faculty to someone qualified, and makes sure it is not an unfunded mandate. (Senator Schellenberg): That change is not feasible. John Rizzo will come to your department and help explain, so it’s not a valid argument.

MSF
To revise the 2.2 to put the responsibility for maintaining the syllabus collection on the university

MSP
To adopt Section 2.2 as amended

MSP
To adopt the revisions to Section 4.0 Faculty Office Hours

MP
To adopt the proposed changes to the Academic Responsibilities Section of Policy File, as amended.

Action Item #2:

The second AP&P proposal responds to the referral on online education:

Move that (a) the proposed changes below be made to the SDSU Policy File, (b) the attached
draft of the “Hybrid and Online Classes” form be incorporated into the Curriculum Guide, and (c) this process be implemented starting with the Spring 2014 semester to allow departments and colleges to establish their internal expectations, requirements, and support structures for hybrid and online courses.

Classes and Courses, Hybrid, and Distance Education

1.0 Distance education shall be defined as a formal educational process in which the primary instructional interaction occurs when student and instructor are not in the same physical location. Such instruction may be synchronous or asynchronous. Distance education may include audio, video or computer technologies. A hybrid class shall be defined as any class in which 20% to 50% of scheduled class sessions are conducted by means in which student and instructor are not in the same physical location. Classes that exceed this 50% limit shall be considered (DE) classes.

Hybrid and Online Classes

1.0 Hybrid and online classes involve a formal educational process in which student and instructor are not in the same physical location, but interact in a synchronous or asynchronous manner through technology. Classes in which 20% to 50% of the scheduled sessions are conducted through this process are defined as hybrid. Classes in which greater than 50% of the scheduled sessions are conducted through this process are defined as online.

Rationale for above changes to Heading and Section 1.0: Removes double-usage of “distance education” as a general approach and specific modality by re-defining “distance education” modality as an “online” modality. Nomenclature change reflects current implementation in schedule of classes, etc. and accounts for most subsequent edits.

2.0 The following guidelines shall apply to new hybrid education and distance education online classes.

2.1 The initial offering of a given course in hybrid and distance education classes online modality by a given instructor shall be offered following consultation with the department chair and relevant departmental bodies, established through consultations between the instructor of record, the chair of the department, and the associate dean of the college. An example “Initial Offering of Hybrid or Online Class” form to facilitate such consultations may be found in the Curriculum Guide.

Rationale for above changes to Section 2.1: Allows departments and colleges to establish internal requirements and expectations for classes to expand into hybrid and online modalities.

2.2 Hybrid and distance education online classes shall be so identified in the official schedule of classes, which shall notify students of any required requirements for participation in synchronous class activities outside beyond those session times indicated in the schedule of classes.

2.3 The schedule of class schedule shall notify students of any software and hardware required for participation in class meetings taking place when the student and instructor will not be in the same physical location.

2.4 Ownership of materials, faculty compensation, copyright issues and the use of revenue derived from the creation and production of hybrid and distance education courses online classes, including software, or other media products shall be in accordance with the policy on Intellectual Property.
2.5 Regardless of **how they are offered** the **modality in which they are offered**, classes should be consistent in terms of purpose, scope, quality, assessment and expected learning outcomes with other classes bearing the same department code, number, and course title. Courses offered via Distance Education shall meet all the standards set forth in the Curriculum Guide regardless of their modality.

2.6 Students enrolled in distance education courses **hybrid and online classes** shall not be denied access to advisement, grievances, or other key academic rights and services, nor shall they be excused from the academic responsibilities expected of all students.

3.0 New Distance Education Programs

3.1 Programs in which fifty percent or more of the coursework is delivered online shall meet the substantive change requirements related to distance education programs as established by the Western Association of Schools and Colleges (WASC).

Rationale for deletion of Sections 3.0 and 3.1: WASC has removed this substantive change requirement as they increasingly focus on evidence of learning regardless of modality of instruction.

Discussion:

(Senator Mattingly): (against proposal): I feel that a change in modality is more serious than simply a change to the syllabus. This proposal is making the process less rigorous and more idiosyncratic. This should all go through shared governance. (Senator Schellenberg): The problem was always that shared governance is cumbersome and most faculty don’t have expertise in different teaching modalities. At the curricular level, shared governance is better, but changing course teaching modality can be done in a small group. WASC is not interested in modality, but rather in evidence of student learning. (Senator Verity): (in favor of proposal): This policy tries to get at student learning outcomes, but does it get to whether the person doing online course has the skill sets necessary for teaching such courses? (Senator Wheeler): (against proposal): The pressure to move to online and hybrid modalities is due to cost; this movement is not driven by educational goals, but by money. New modalities need to be discussed at the curricular level. We should be concerned with this in the same way that we are concerned with titles, content, and other changes to curriculum. (Senator Cordero): At the IVC we have some classes linked to this campus. We call it distance education, if we remove that term what do we call it? Does that mean this policy does not govern what we do at IVC? (Senator Schellenberg): I would call it “intercampus course.” (Senator Atkins): (in favor of proposal): I agree with Senator Verity. It is impossible to decide upon whether distance education courses are viable. It is not our expertise. ITS used to look at these issues, but it became a burden. In our college, we make sure faculty go through ITS training to teach these courses. (Senator Esbenshade): (against proposal): This is fast-tracking the process, but we need to be more thoughtful. (Senator Schellenberg): Curricular process is important, but this is about how students are learning, regarding the modality of the course.

MSP To extend debate.

(Senator Donadey): (against the proposal) I would like to raise an additional issue regarding 2.1: This new process cuts out the entire faculty. Associate Deans and Chairs can now determine moving courses online. (Senator Deutschmann): (in favor of proposal): No one has ever asked whether teaching modalities are effective when I make such changes. (Senator Putman): (against proposal): 2.1 does not encourage faculty, but rather gets rid of their voice. There are other issues of modality in teaching that get discussed at the department level. (Senator Csomay): (in favor of motion): There is currently no system by which we can look
at the effectiveness of these courses. **(Senator Packard):** (against proposal): Distance learning and IVC issues needs to be thought through and reworked. **(Senator Schellenberg):** I would be happy to work with you about the language. **(Senator Plice):** (in favor of proposal): Our department policy file dictates what a Department Chair can and can’t do. These protections should reside in the individual department policy file. There is a distinction between the architecture of a course and who and what assessments are used within those courses. **(Senator Wheeler):** False analogies being used. Different textbooks, etc. are not the same as different modalities. This is major paradigm shift in how courses are being run. The Curriculum Committee rejects classes all the time, and is suited for how the class is taught. We can be moderate in our timing about curriculum changes. I urge we go slowly.

MF to adopt the proposal from AP&P regarding online education.

Since the referral that prompted the policy proposal was not satisfied, it remains on the Referral Chart.

**Action Item #3:**

APP unanimously approved, and now moves that senate approves, the new Early Childhood Mental Health concentration within the existing MS program in Child and Family Development.

**Rationale:** This new concentration is designed to prepare students who (1) have completed their Early Childhood Socio-Emotional and Behavioural Regulation Interventional Specialist (EC-SEBRIS) certificate and (2) are currently pursuing their MS in child development to concurrently pursue their state clinical licensure under the requirements established by the Board of Behavioral Sciences – Licensed Professional Clinical Counselor (LPCC). This new concentration within Child and Family Development is also supported by the School of Social Work.

**MP** To approve the new concentration in Early Childhood Mental Health for the Department of Child and Family Development.

Bargaining

The CFA Bargaining Team met with the CSU management bargaining team for two days, Thursday and Friday, March 13 and 14 in Sacramento. The two central issues discussed were the faculty evaluation process introduced by the CSU management team, and compensation issues introduced by CFA. Both discussions were detailed and included substantial give and take. While there were some areas of general agreement about problems with faculty salaries, there was no specific agreement on the appropriate remedy. The next meetings will be in Long Beach on March 27 and 28.

The 100-Day Contract Countdown has begun. Our contract, which covers the faculty, coaches, counselors and librarians of the CSU, expires June 30. Negotiations between CFA and CSU are ongoing, with much emphasis from CFA on excessive demands for teaching, research and service, and stagnant compensation.

Six CFA members addressed the CSU Trustees on March 25 to explain why a fair contract is important not only to themselves and their families but also to the quality of the education their students get. Andy Merrifield, chair of the CFA Bargaining Team, reminded the board about the 100-Day Contract Countdown and introduced the members during the open comment period of the Trustees’ Collective Bargaining Committee.

Elaine Bernal, an organic chemistry lecturer at Long Beach, said “It has become increasingly difficult to provide for my family with rising health premiums and taking care of my 8 year old’s chronic asthma, and continue to give excellent service to my students because our research, laboratory, and teaching spaces simply cannot meet the demand of students who want to be future doctors, dentists, engineers, and scientists that contribute to the underserved communities that they grew up in.”

Jamil Momand, a professor of biochemistry at Cal State LA, told trustees: “I care for my students, but I simply don’t have time to train students and teach three large traditional classes at the same time” and “I believe with my heart and soul that the lack of proper compensation is causing faculty like me to lose the opportunity to train students. I believe this will result in weakening California’s educated workforce.”
“These faculty members’ personal and professional experiences regarding salary and work expectations over the past six years reflect the experience of a wide swath of CSU faculty at all of the 23 campuses” and “I hope testimony like this helps the Trustees understand our commitment and the years of difficulties we have been up against,” said Andy Merrifield after the meeting. Gov. Jerry Brown and Assembly Speaker John A. Perez, both ex-officio CSU Trustees, were among the Trustees present.

CFA Lobby Days at the State Capitol to Advocate for CSU Funding and for Students

Some 100 faculty, staff and students will be at the State Capitol April 1-2 to advocate for the funding the CSU needs and for two bills that would protect students in our public university. The days will start with a program with five current Assemblymembers, all former California State University faculty members—Shirley Weber and Marty Block who taught at San Diego State, Raul Bocanegra at CSU Northridge, Anthony Rendon at CSU Fullerton, and Susan Eggman at Sacramento State.

CFA Contact Information

Please feel free to contact our campus California Faculty Association office at any time if we can provide assistance, whether on a contract rights issue or other matter. Our campus CFA chapter has a Faculty Rights Committee, composed of faculty volunteers, and we are available to talk with faculty colleagues about individual situations and assist in resolving issues. We can be reached at cfa@mail.sdsu.edu or x42775.

**The Campaign for SDSU:**

The Campaign for SDSU has reached a new milestone. Our Campaign total is now at $477 million toward the goal of $500 million. Two significant gifts to The Campaign were recognized on February 21st with the dedication of the J. Keith Behner and Catherine M. Stiefel Auditorium and Charles Hostler Hall in the renovated Storm/Nasatir Hall.

On March 7, SDSU recognized another significant gift to The Campaign with a ribbon cutting event for the Lee and Frank Goldberg Courtyard. The Goldberg Courtyard is in the Conrad Prebys Aztec Student Union which was also dedicated on March 7th and which recognizes a $20 million gift to SDSU from philanthropist Conrad Prebys.

Other gifts of note to The Campaign are:

Campanile Foundation Board Member and Alumnus Andy Esparza and his wife Karen, (also an alum) are gifting $50,000 to SDSU to support the College of Business Human Resources Program.

Alumna Danah Fayman has made a gift of $104,000 for an endowment for Special Internships in the Arts.

Alumnus Kenneth Kellett and his wife Darlene have committed to supporting the College of Business Administration through a bequest of $300,000.

Campanile Board Member and Alumnus Michael Pack and his wife and fellow Alumna Chris have pledged $22,000 to support the Pack International Business Scholars and the International Business Programs Fund.
Diane Gaske has established the Paul Gaske Memorial Scholarship Endowment in Forensics with a pledge of $25,000. The Love Library has received several gifts in kind: $435,351 from Ed Marsh, books and materials for the Ed Marsh Special Collections; $108,100 from Camille Abbott Gurevitch, books and materials for Special Collections. Alumnus Gilbert Harrison has made two gifts totaling just under $100,000. These gifts will support an endowed scholarship for veterans and an endowed scholarship for nursing students.

Campanile Foundation Board Member and Alumna Susan Salka is making a gift of $100,000 to support our Guardian Scholars Program. We have received yet another pledge toward the Confucius Institute in the College of Arts and Letters. This pledge is for $2 million to support programs in the Institute. Alumnus Anthony Ghio has committed to supporting our Athletic Program through a bequest of $100,000. The College of Sciences has received a gift in kind of equipment from Illumina, Inc. The gift is valued at $130,000. Longtime supporter and community leader Malin Burnham has made a gift of $30,000 to support the Basketball Performance Center Project.

Alumni Engagement:
We have launched a new, more user friendly on-living giving web site. https://securelb.imodules.com/s/997/campaign13/index.aspx?sid=997&gid=1&pgid=3034

This is a critical step as we build our infrastructure for receiving donations. We now have the ability to utilize e-commerce, mobile and text giving in addition to the traditional media of phoning and direct mail.

Government & Community Relations:
Based upon a recommendation from the Strategic Plan’s Neighbor and Community Relations Working Group, in collaboration with Athletics, we are happy to announce that the speakers on the softball field have been replaced and relocated, to reduce the noise pollution that has proved problematic for our near neighbors over recent years.

Marketing and Communications:
Top line data from our National Branding and Marketing Campaign:

Presidential and Special Events:
On Wednesday, February 12 President Hirshman and Vice President Carleton hosted the 5th Annual Scholarship Luncheon. Over 200 students, donors and campus leaders attended the annual event designed to connect scholarship recipients with their donors. Entertainment was provided by SDSU student entertainers. The program featured student speakers who shared their success stories and appreciation for philanthropic support. Ben ’69 and Nikki ’67, ’72 were honorary co-chairs. Nikki is also a board member of The Campanile Foundation.

On Tuesday, March 18 the Kyoto Prize Laureate in Advanced Technology, Dr. Robert Heath Dennard, is recognized at the Kyoto Prize Symposium held on the campus of San Diego State University. Dr. Dennard invented what is considered one of the most significant advances in computer technology Dynamic Random Access Memory (DRAM). The event is always well-attended by campus and community members as well as high school and college students from throughout southern California and Mexico.

7.5 WASC Update (Chase)

Information:
Western Association Schools and Colleges (WASC)
Accreditation Update

Background

San Diego State University is accredited, along with about 160 institutions in California, Hawaii, and Guam by WASC, one of six regional higher education accrediting agencies in the United States. All six regional agencies work directly with the Department of Education.

San Diego State University was re-accredited by WASC in 2006, for a period of ten years, the longest period possible under Department of Education guidelines. Now, SDSU is preparing for its next round of review and re-accreditation, which must be completed by spring 2016.

New Process for Review

The re-accreditation process has been revised and a new protocol was adopted in 2013, when the WASC Handbook of Accreditation was formally adopted. Given the guidelines outlined in the Handbook, SDSU will complete the following:

Conduct a self-assessment and compile materials in preparation for drafting a self-study under the WASC standards. This self-assessment is underway and is being conducted by the WASC Steering Committee.¹

Submit SDSU Self Study to WASC – December 2014 or January 2015

WASC Evaluation Team conducts Off-site review (OSR) – late Spring 2015

WASC Evaluation Team submits a report outlining “lines of inquiry” for the Accreditation Visit (AV)

SDSU prepares a response to the team report and submits it to WASC

WASC Evaluation Team comes to campus for a three-day Accreditation Visit – early spring 2016

The Evaluation Team makes its recommendation to the WASC Commission, which makes its formal recommendation regarding San Diego State University – June 2016.

The WASC Commission can grant re-accreditation for a period of 7, 8, 9, or 10 years. WASC now requires, as do all regional accreditation agencies, that a mid-cycle review take place once re-accreditation has been granted. If, for example, SDSU is granted 10 years, a mid-cycle review will take place in 5 years. If, on the other hand SDSU is granted 8 years, the mid-cycle review will take place in 4 years.

Substance of the Review

Seeking re-accreditation requires addressing four standards established by WASC:

¹ Suzanne Bordelon, Ph.D., Professor, Rhetoric & Writing; Geoffrey Chase, Ph.D., Dean, Division of Undergraduate Studies; Frank Harris, III, Ed.D. Associate Professor, ARPE/Interwork Institute; Kurt J. Lindemann, Ph.D., Associate Professor, School of Communication; Radmila Prislin, Ph.D., Associate Dean, graduate and Research Affairs; Christy J. Samarkos, Director, Residential Education; Stephen A. Schellenberg, Ph.D., Associate Dean, Division of Undergraduate Studies; Emilio C. Ulloa, Ph.D., Director Psychology Undergraduate Advising and Programs Psychology.
1. Defining Institutional Purposes and Ensuring Educational Objectives
2. Achieving Educational Objectives Through Core Functions
3. Developing and Applying Resources and Organizational Structures to Ensure Quality and Sustainability
4. Creating an Organization Committed to Quality Assurance, Institutional Learning, and Improvement

WASC provides, for each of these standards, a number of Criteria for Review (CFRs) to guide institutions as they collect background information and write their self-study. More information about the Standards and the CFRs is available at http://www.wascsenior.org/resources/handbook-accreditation-2013.

While the Standards and the CFRs together compile a fairly long list of what must be addressed by institutions, there are several critical issues that form the basis of the review. These include:

1. Data on retention, graduation, and completion disaggregated by ethnicity and other demographic characteristics
2. Evidence of student learning with a particular focus on the direct measures of student work that faculty use to (1) ensure that learning outcomes and expectations are commensurate with the degrees students receive, and (2) make program changes to improve student learning and achievement. In addition to providing evidence of student learning in degree programs, institutions seeking re-accreditation are being asked to address three core competencies (writing, oral communication, quantitative reasoning, critical thinking, or technological literacy) and to provide evidence of student learning related to these competencies. Institutions may also adopt a theme, and use that theme as a way to highlight learning related to particular area or focus, such as study abroad.
3. Transparency. WASC requires that institutions make publicly available information related to graduation data and student learning.

Annual Reporting Update

Although SDSU seeks re-accreditation every 8 – 10 years, WASC requires annual reports from all institutions in its region. In the past, these reports have required basic information regarding enrollment, website ULR, name and address of president, etc. The Annual Report guidelines have recently been changed to include:

Public data on student achievement -Per CFR 1.2, institutions are required to regularly generate, evaluate, and make public data about student achievement, including measures of retention and graduation and evidence of student learning outcomes (emphasis added). Institutions will be asked to provide a publicly accessible web address where this information is available. The link will be made available to evaluation teams and will be published on the Institution’s Statement of Accreditation Status page in the WASC Directory of Institutions.

The impact of this is that by May 15 of this year, SDSU will have to provide a web site that includes graduation and retention data, which is already provided by the Office of Institutional Research, and evidence of student learning. We will provide that evidence by drawing on the assessment information that has been entered into WEAVE, but we will also be looking for any other exemplary case studies we might use to highlight our focus on student learning and achievement.
